

Matthew J. Solano

Technical Support • End User Computing • IT Infrastructure

Upland, CA | (909) 329-5490
matthewsolano187@yahoo.com | mjsweb.github.io

PROFILE

Technical support and customer-experience professional with approximately eight years of experience providing technical support across in-person, hybrid, and remote environments. Proven track record resolving hardware, software, operating system, network, and cloud-service issues while delivering high customer satisfaction. Adept at root-cause analysis, end-user computing support, technical documentation, and cross-functional communication. Combines strong troubleshooting methodology with practical workflow improvement.

TECHNICAL SKILLS

Systems & Endpoints: macOS, iOS, Android, Windows (Client troubleshooting), Device Deployment & Provisioning, Remote Support Tools.

Enterprise Productivity & Cloud: Microsoft 365, Cloud Services, Account & Access Management, Collaboration Tools.

Hardware & Peripherals: Desktops, Laptops, Mobile Devices, Printers, Scanners, Audio/Video Conferencing & Collaboration Equipment, Component Diagnostics & Repair.

Support Operations: Incident & Service Request Management, Root-Cause Analysis, Asset Tracking & Inventory, Technical Documentation & Knowledge Base (KB).

EXPERIENCE

Apple — Technical Expert

Rancho Cucamonga, CA | January 2022 – July 2026

- Delivered hardware, software, OS, network, and cloud-service support in a fast-paced, high-volume environment.
- Performed comprehensive component diagnostics, device imaging, data migration, and hardware repairs while adhering strictly to safety, quality, and service standards.
- Diagnosed and isolated root causes for software conflicts, synchronization errors, network connectivity issues, and account security policies.
- Managed critical escalations and customer recovery scenarios; mentored and trained team technicians on diagnostic methodology, technical documentation, and customer communication best practices.

Apple — Technical Specialist

Rancho Cucamonga, CA | September 2018 – January 2022

- Supported end-user computing including device provisioning, operating system setup, data transfers, backup validation, and peripheral troubleshooting.
- Translated complex technical concepts into structured, step-by-step guidance for users with diverse technical proficiencies, ensuring seamless technology adoption.
- Documented detailed incident symptoms, troubleshooting steps, and resolution outcomes in ticketing systems to maintain accurate inventory and asset records.

Apple — At Home Advisor

Remote | September 2019 – June 2020

- Delivered remote technical triage and multi-tier support without physical device access using structured questioning, active listening, and remote support tools.
- Supported remote network connectivity, software installations, account permissions, and collaboration platforms for distributed end users.
- Maintained complete case documentation and knowledge base updates while consistently meeting and exceeding productivity and quality metrics.

MarketSource — Wireless Manager

Fontana, CA | June 2015 – September 2018

- Led daily wireless and mobile technology operations, trained support staff, managed hardware inventory tracking, and resolved escalated device and network connectivity issues.

PROJECTS

Right Side Up Bible & Digital Platform: Designed and maintained responsive web applications, integrating cloud databases (Firebase/Firestore), API endpoints, and multi-device usability testing.

Local AI & Automation Lab: Hands-on work with local LLMs (Ollama, APIs) to evaluate automated technical documentation, script-assisted triage, and repeatable troubleshooting.

Children's Publishing & Production Workflows: Managed structured digital publishing pipelines, manuscript verification, print formatting, asset organization, and metadata standards.

EDUCATION & CERTIFICATION

Chaffey College — Computer Information Systems; Business & Technology; Arts & Humanities

Rancho Cucamonga, CA

DeepLearning.AI / Coursera — Generative AI with Large Language Models

Coursera Certification

Fontana High School — High School Diploma

Fontana, CA
