

MATTHEW J.S. SOLANO

Upland, CA • (909) 329-5490 • matthewsolano187@yahoo.com
AI SOLUTIONS • CUSTOMER SUCCESS • TECHNICAL ACCOUNT SUPPORT

PROFESSIONAL SUMMARY

Technical professional with strong experience in troubleshooting, customer solutions, and workflow optimization, now focused on generative AI and automation. Skilled in applying Large Language Models (LLMs) to streamline processes, improve efficiency, and build intelligent task-based workflows. Able to translate complex technical issues into clear, user-friendly solutions.

TECHNICAL SKILLS

- Generative AI & LLMs (prompt engineering, summarization, classification)
 - AI Workflow Automation (Zapier, API-based tools)
 - Technical Troubleshooting & Diagnostics
- Process Optimization & Efficiency Improvement
- Customer Support & Technical Communication
 - Basic Python & API Concepts

CERTIFICATIONS

- Generative AI with Large Language Models - DeepLearning.AI (Coursera)
- Built LLM workflows for automation (email processing, summarization, decision logic)
 - Developed prompt engineering and structured output techniques
 - Understanding of LLM lifecycle, evaluation, and real-world applications

PROJECTS

- Right Side Up Bible App - Active Prototype
- Translate user needs into product requirements, interface behavior, and testable feature priorities
 - Iterate on usability issues and document clear next directions
- Children's Book Publishing Workflow - Published + In Development
- Published Chase the Cheetah through Amazon KDP; additional books remain in development
