

# Matthew J. Solano

*Technical Support • Product Thinking • Practical AI*

Upland, CA • (909) 329-5490 • matthewsolano187@yahoo.com

**Portfolio Website:** mjsweb.github.io

## Professional Profile

Technical support and customer-experience professional with approximately eight years at Apple across remote and in-person roles. Experienced resolving complex hardware, software, connectivity, cloud-service, security, account, and workflow issues while guiding customers through clear next steps. Builds practical AI-assisted products and digital workflows that combine troubleshooting, product thinking, documentation, testing, and continuous improvement.

## Professional Experience

### **Apple** (2018–2026)

*Technical Expert • Technical Specialist • Apple At Home Advisor  
(Remote)*

- Diagnosed advanced hardware, software, networking, cloud-service, account, and Apple ecosystem issues across a wide variety of products.
- Performed advanced diagnostics, repairs, and root-cause analysis while communicating complex technical information clearly.
- Managed high-priority escalations and restored customer confidence through exceptional service and problem solving.
- Collaborated with cross-functional teams to resolve difficult customer issues while balancing business goals and customer experience.
- Mentored peers on troubleshooting methodology, documentation quality, repair practices, and customer communication.
- Quickly adapted to new Apple technologies, repair procedures, software releases, and internal support tools.

### **MarketSource – Wireless Manager** (2015–2018)

- Managed wireless operations, trained employees, advised customers on mobile technology, and supported business performance.

## PROJECTS

### **Right Side Up Bible**

Designed and refined an AI-assisted Bible application focused on reading continuity, notes, maps, search, responsive layouts, backend workflows, testing, and debugging.

### **Right Side Up with God**

Created and continue developing a digital ecosystem integrating a Bible app, website, publishing, music, and AI-assisted content workflows.

### **Application & Game Prototypes**

Built web, mobile, and game prototypes while learning new frameworks and AI-assisted development.

### **Local AI Lab**

Hands-on experience with ChatGPT, Codex, Gemini, Google AI Studio, Ollama, ComfyUI, Stable Diffusion, FLUX, and local LLMs.

## Technical Capabilities

Remote Technical Support • Root-Cause Analysis • Hardware & Software Diagnostics • Customer Escalation • Cloud & Account Support • Networking Fundamentals • Technical Documentation • Training & Mentoring • Product Prototyping • AI-Assisted Development • Firebase • Firestore • REST APIs • HTML/CSS/JavaScript • GitHub

## Education & Certification

**Chaffey College** — Computer Information Systems • Business & Technology • Arts & Humanities

**DeepLearning.AI / Coursera** — Generative AI with Large Language Models
