Upland, California | (909) 329-5490 | matthewsolano187@yahoo.com

U.S. Citizen: [confirm] | Veterans' Preference: [confirm] | Federal Status: [confirm]

TARGET POSITION

Immigration Services Officer, GS-1801-05

Announcement 12808934-ADJ-DHA-25 | Control 847039500 | Remote

QUALIFICATIONS SUMMARY

- Eight years of public-facing technical support and service experience analyzing problems, gathering pertinent information, recognizing workable solutions, and guiding people through high-stakes or frustrating situations.
- Skilled at structured questioning: establishing timelines, clarifying facts, verifying details, identifying inconsistencies, and documenting findings when the issue is not directly visible.
- Plans and organizes concurrent cases for timely completion; communicates decisions, procedures, and next steps clearly in person, by phone, and in writing.
- Exercises sound judgment and discretion while protecting customer information, following established procedures, and escalating matters that require additional review.

CORE COMPETENCIES

Problem Analysis • Information Gathering • Structured Interviews • Fact Verification • Written Documentation
• Work Planning • Sound Judgment • Policy & Procedure Adherence • Confidentiality • De-escalation

PROFESSIONAL EXPERIENCE

TECHNICAL EXPERT | Apple — Rancho Cucamonga, California

Dates: 2022–Present [confirm month/day] | Schedule: Full-time [confirm hours/week] | Salary: [confirm]

Employer street address: [confirm] | Supervisor/phone: [confirm] | May contact: [confirm]

- Analyze device, account, software, and service problems by gathering customer statements, diagnostic results, and relevant history; compare expected and observed behavior to identify appropriate solutions.
- Conduct structured interviews to establish timelines, clarify symptoms, verify details, and reconcile incomplete or inconsistent descriptions before taking action.
- Document findings, actions, service paths, and escalation history so other team members can understand the issue and continue the case efficiently.
- Exercise judgment when selecting repair, service, education, or escalation options within established procedures while safeguarding private customer information.
- Plan and manage concurrent appointments and technical cases, explain decisions and next steps in plain language, and mentor technicians on consistent troubleshooting practices.

TECHNICAL SPECIALIST | Apple — Rancho Cucamonga, California

Dates: 2020–2022 [confirm month/day] | Schedule: [confirm hours/week] | Salary: [confirm]

Employer street address: [confirm] | Supervisor/phone: [confirm] | May contact: [confirm]

- Received customers, elicited relevant facts, diagnosed iPhone and iPad hardware and software concerns, and organized work to deliver timely resolutions or accurate escalations.
- Communicated technical findings, procedural requirements, and service expectations clearly to people with varied levels of technical knowledge.
- Maintained orderly case information and coordinated with peers and leaders when additional evidence, authorization, or specialized review was needed.

PROFESSIONAL EXPERIENCE — CONTINUED

APPLE AT HOME ADVISOR | Apple — Remote, California

Dates: 2020 [confirm month/day] | Schedule: [confirm hours/week] | Salary: [confirm]

Employer address: [confirm] | Supervisor/phone: [confirm] | May contact: [confirm]

- Resolved customer issues by phone without physical access to the device, using precise questions to gather evidence, test explanations, and isolate likely causes.
- Guided customers through multi-step troubleshooting, checked results after each action, adapted the plan when facts changed, and escalated unresolved matters with clear case context.
- Balanced service quality, accuracy, and timely completion while explaining complex instructions and outcomes in understandable language.

WIRELESS MANAGER | MarketSource — Fontana, California

Dates: 2015–2018 [confirm month/day] | Schedule: [confirm hours/week] | Salary: [confirm]

Employer street address: [confirm] | Supervisor/phone: [confirm] | May contact: [confirm]

- Managed day-to-day wireless operations, organized staff priorities, and monitored customer needs to keep work moving toward timely completion.
- Gathered customer requirements, reviewed account and device information, explained available options, and identified solutions consistent with program procedures.
- Trained and coached team members, resolved escalated concerns, and communicated expectations and results clearly to customers and staff.
