DIGITAL AI WORKFORCE • CUSTOMER ADOPTION • CONSULTATIVE TECHNOLOGY

PROFESSIONAL PROFILE

Customer-facing technology and AI solutions professional with 10+ years across Apple and wireless retail.

Experienced in consultative discovery, translating technical complexity into clear business and user outcomes, guiding technology adoption, training teams, and restoring customer confidence. Hands-on builder of generative-AI workflows, digital products, and web experiences using cloud and local AI tools.

CORE STRENGTHS

Consultative Discovery • Customer Adoption • Technology Sales • Solution Demonstrations • Stakeholder Communication • Cross-Functional Collaboration • Training & Coaching • AI Workflow Design • Prompt Engineering • Codex • Llama / Ollama • ComfyUI

PROFESSIONAL EXPERIENCE

TECHNICAL EXPERT | APPLE | RANCHO CUCAMONGA, CA | 02/2022 – 07/2026

- Led consultative conversations to uncover personal and business technology needs, assess constraints, and recommend appropriate device, service, support, and adoption paths.
- Translated complex technical issues and solution options into clear outcomes; built trust through education, expectation-setting, and ownership of escalated customer situations.
- Mentored technicians and collaborated across service, sales, and leadership teams to improve troubleshooting consistency and customer handoffs.

TECHNICAL SPECIALIST | APPLE | RANCHO CUCAMONGA, CA | 09/2018 – 02/2022

- Delivered personalized technology consultations, account and device support, solution demonstrations, and customer education in a fast-paced environment.
- Diagnosed multi-step hardware, software, and service issues; coordinated with peers and leaders to resolve escalations and guide customers toward confident product use.
- Completed a concurrent Apple At Home Advisor assignment (09/2020–04/2021), providing structured remote discovery, troubleshooting, documentation, and follow-through.

WIRELESS MANAGER | MARKETSOURCE | FONTANA, CA | 06/2015 – 09/2018

- Led customer consultations and wireless sales operations, matched needs to technology solutions, trained employees, and managed daily priorities and escalations.

SELECTED AI & DIGITAL PRODUCT WORK

RIGHT SIDE UP DIGITAL ECOSYSTEM — Product planning, responsive website and Bible-app development, feature iteration, testing, debugging, and AI-assisted implementation.

MULTI-MODEL AI WORKFLOWS — Use Codex for planning, coding, debugging, and orchestration; Llama through Ollama for local inference; and ComfyUI with generative-image models for repeatable creative workflows.

EDUCATION & CREDENTIAL

Chaffey College — A.S., Computer Information Systems; A.A., Business & Technology; A.A., Arts & Humanities
Generative AI with Large Language Models — DeepLearning.AI / Coursera, 01/2026
