PRODUCT DESIGNER & VIBE CODING SPECIALIST

Product Designer (Design+Code / Vibe Coding) combining 8 years of Apple technical and product experience with rapid AI prototyping skills. Specialist in bridging design and engineering through AI coding assistants (Antigravity, Gemini, Ollama, ComfyUI) to rapidly build functional, interactive Web & Mobile prototypes, creator tools, and AI-driven UI systems.

CORE COMPETENCIES & TECHNICAL SKILLS

- | | | |
|-------------------------------|------------------------------------|----------------------------------|
| ▸ Design+Code / Vibe Coding | ▸ Rapid AI Prototyping | ▸ Interactive UI/UX Design |
| ▸ HTML5 / CSS3 / Vanilla JS | ▸ React & Mobile Workflows | ▸ Design Systems & Components |
| ▸ Antigravity & AI Assistants | ▸ Ollama / Local LLM Inference | ▸ ComfyUI / Stable Diffusion |
| ▸ Canvas & Graphics Engines | ▸ Creator Tools & Generative Media | ▸ Cross-functional Collaboration |

PROFESSIONAL EXPERIENCE

Apple — Technical Expert September 2018 – July 2026
Rancho Cucamonga, CA

- Solved complex technical problems by identifying root causes, communicating solutions clearly, and improving customer outcomes—strengthening the product-thinking and user empathy skills driving customer satisfaction.
- Iterated on customer feedback loops and real-world hardware/software edge cases to inform intuitive, accessible product experiences.
- Collaborated cross-functionally across store operations and customer support teams to elevate technical service efficiency.

Founder, Product Designer & Developer — Right Side Up Digital Ecosystem 2023 – Present
Independent Side Projects & Creator Applications

- RSU Studio QR Tool:** Architected and coded a custom, brand-aligned web app with real-time canvas rendering, custom eye/dot geometry, and logo overlays using Vibe Coding workflows.
- RSU Bible App:** Designed and prototyped a responsive mobile/web study application featuring custom note-taking, search, mapping, and comfortable reading continuity.
- Right Side Up With God Music:** Orchestrated an AI-assisted generative audio & media pipeline spanning Suno song generation, lyrics, style prompting, and multi-platform publishing.

FEATURED PROJECTS & AI LAB (VIBE CODING)

RSU Studio — Local Model & Product Generation Studio 2024 – Present
Local AI Lab | Ollama, ComfyUI, Stable Diffusion, Antigravity, Gemini

- Engineered local AI workflows combining node-based image generation, prompt engineering, and LLMs to accelerate product design and brand asset generation.
- Leveraged Vibe Coding methodologies to bridge design exploration and production-ready code in hours.

EDUCATION & CERTIFICATIONS

Certification: Generative AI with Large Language Models — DeepLearning.AI / Coursera	2024
Associate in Science: Computer Information Systems	Chaffey College, Rancho Cucamonga, CA
Associate in Science: Business & Technology	Chaffey College, Rancho Cucamonga, CA
Associate in Arts: Arts & Humanities	Chaffey College, Rancho Cucamonga, CA
